

### **How do I get more information and help on these issues?**

There will continue to be additional information sheets developed that will offer more specific details on various subjects. Additionally, there will be some video recordings for advance review, as well as a couple of live Zoom “practice meetings” so that people can get used to the virtual meeting format. There will also be some volunteer helpers available, both in advance via email, and during the assembly via email, phone, and Zoom chat to help resolve problems. Continue to watch email and check the assembly page on the synod website and social media sites for updated information.
